

2024 Description of Services & Fees

About Us: The Brown Clinic offers comprehensive psychological assessments for children, teenagers and adults for ADHD and Related Disorders. We evaluate new patients of all ages - local, national & international.

New Patient Intake: All prospective new patients are first screened with a brief intake call with our new patient coordinator. If your needs fit our services, we will provide a packet for registration, and then help you schedule the initial 3-hour diagnostic evaluation with one of our providers.

Evaluations are mostly conversational and include clinical interviews with the patient and family. All patients are assessed using the *Brown Attention/Executive Function Rating Scales*; cognitive measures for short-term working memory abilities; and screening for other related disorders. By the end of the appointment, your provider will answer any questions and discuss their diagnostic impressions and recommendations for treatment. Minors (under 18) need at least one parent present during the evaluation and adults are encouraged to bring a family member or close friend to provide additional perspective.

Follow up Appointments for treatment monitoring, psychotherapy, psychological testing, cognitive-behavioral therapy and/or family meetings are scheduled for 1 hour sessions and billed according to the provider's hourly fee. Appointments are not pro-rated based on time seen.

Testing & Report Writing for Accommodations: For patients who request administration of IQ and other psychological, educational-academic or achievement testing (2 hours minimum, up to a max of 8 hours) are scheduled by our office manager only after completion of the initial evaluation. Charges for preparation of a comprehensive written report of such evaluations are billed separately by the hour for preparation, analysis and interpretation of the written summary report.

Payment: The Brown Clinic does not accept direct payment from health insurance, however we can provide you with a form (SuperBill) that patients may submit to your health insurance company for possible out-of-network coverage depending on your plan's policies. For all services, payment is due at the time services are rendered. We accept direct payment via credit or debit card, (including HSA/FSA), check, or cash.

Rate/Fees: Our initial evaluation fee (x3 hours) is billed for \$1,500. All other appointments are booked by the hour at a rate of \$400 or \$300 per session, respectively with Drs. Brown or Kennedy.

Business Hours: 9:00 am - 5:00 pm (PST), open daily, Monday to Friday.

Address: 500 S. Sepulveda Blvd., Suite 218 • Manhattan Beach, CA 90266
